<b>Advanced Metering Infrastructure (AMI): "Smart" Metering Meets the Smart Grid (2007)</b> – Advanced Metering Infrastructure (AMI) is the next generation of Automated Meter Reading, and much more. In addition, AMI can bring significant benefits both to utilities and their customers: it can be the first step to achieving a smarter grid for many utilities.	SR <input type="checkbox"/> \$425 MR <input type="checkbox"/> \$999	SR <input type="checkbox"/> \$625 MR <input type="checkbox"/> \$1299	SR <input type="checkbox"/> \$825 MR <input type="checkbox"/> \$1599
<b>"Smart Grid" Applications: A Guide to Automation Applications and Vendors (2007)</b> – Working from UTC's "Next Generation" study, this report helps energy and water companies understand the role of different applications to help create a technology implementation "roadmap." It includes comprehensive vendor descriptions and contact information for each application.	SR <input type="checkbox"/> \$425 MR <input type="checkbox"/> \$999	SR <input type="checkbox"/> \$625 MR <input type="checkbox"/> \$1299	SR <input type="checkbox"/> \$825 MR <input type="checkbox"/> \$1599
<b>NERC CIP Standards: Ten Steps to Compliance (2007)</b> – The NERC CIP Standards were established in response to increasing concerns about the vulnerability of critical infrastructure cyber networks. This invaluable report guides utilities through the maze that the standards represent for many.	SR <input type="checkbox"/> \$425 MR <input type="checkbox"/> \$999	SR <input type="checkbox"/> \$625 MR <input type="checkbox"/> \$1299	SR <input type="checkbox"/> \$825 MR <input type="checkbox"/> \$1599
<b>The State of Utility Fiber 2007</b> – Fiber-optic technology is widespread among utilities and a critical component for many. This report highlights the current trends, including "capital deepening" rather than expanding fiber networks and expanding capacity through tradeoff agreements. Keep up with the industry-wide changes through this comprehensive report authored by KEMA, Inc. for UTC.	SR <input type="checkbox"/> \$425 MR <input type="checkbox"/> \$999	SR <input type="checkbox"/> \$625 MR <input type="checkbox"/> \$1299	SR <input type="checkbox"/> \$825 MR <input type="checkbox"/> \$1599
<b>New Wireless Technologies for Utilities: Radio-IP, WiMax, and Mesh Networking (2007)</b> – Not only must future utility communications systems do more at a lower cost, they must use limited spectrum more efficiently. This important research examines several options to help utilities invest in the latest wireless technologies to support applications while simplifying network and application integration.	SR <input type="checkbox"/> \$425 MR <input type="checkbox"/> \$999	SR <input type="checkbox"/> \$625 MR <input type="checkbox"/> \$1299	SR <input type="checkbox"/> \$825 MR <input type="checkbox"/> \$1599
<b>Wireless Attachment Market Report 2007</b> – Based on a survey conducted among IOUs, cooperatives and municipalities, this report provides important information for utilities that wish to use their infrastructure to add to their bottom lines. Learn from case studies of utilities how they have established successful businesses in carrier services.	SR <input type="checkbox"/> \$425 MR <input type="checkbox"/> \$999	SR <input type="checkbox"/> \$625 MR <input type="checkbox"/> \$1299	SR <input type="checkbox"/> \$825 MR <input type="checkbox"/> \$1599
<b>New Directions for Broadband Over Power Line 2007/2008</b> – The future growth of Broadband over Power Line (BPL) is now tied to Smart Grid development in the energy industry. Find out the latest BPL developments in this comprehensive report.	SR <input type="checkbox"/> \$425 MR <input type="checkbox"/> \$999	SR <input type="checkbox"/> \$625 MR <input type="checkbox"/> \$1299	SR <input type="checkbox"/> \$825 MR <input type="checkbox"/> \$1599
<b>Next Steps to the Next-Generation Utility (2007)</b> – A major report on the biggest trend in the utility business. This report thoroughly explores all the possibilities for future infrastructure investments while adding sustainable value.	<input type="checkbox"/> Free	<input type="checkbox"/> \$1,995	<input type="checkbox"/> \$2995
